Judge James D. White has taken his oath of office and is now one of the Judges of the Court of Appeals, ready for work and salary.

The Republican silver Senators, who walked out of the St. Louis convention, are wondering whether they will be invited into the Republican caucus.

Up to June 30 last the United States Government had disposed of 964,000,000 acres of the public domain, leaving over 600,000,000 acres still vacant, not including over 369,900,000 acres in Alaska.

Sharkey is under the care of three doctors, who say that it will be at least a week before he recovers. Two of the doctors have expressed the opinion that Sharkey's injuries were not caused by a blow from Fitzsimmons.

In answer to the charge that the Republican State Committee of Tennessee has failed to account for \$50,000 of the \$100,000 placed in its hands as a campaign fund, the chairman of the committee has denied that any such sum was received, or that any portion of the campaign fund was improperly used.

The dawning of a new year will soon be upon us—how time does fly—and we will make the same old resolutions and break them as heretofore, unless guided by some divine power. Let every man in Mt. Sterling first seek the advice and love of his Maker and when that is gained, he will have little trouble in living up to his promises and resolves.

The State Department has been notified that Minister Andrade, of Venezuela, who went to Caracas to lay the arbitration treaty before President Crespo, will return to Washington at once. His early return, without awaiting the action of the Venezuelan Congress, causes surprise, but no explanation of it is offered.

Two petitions, similarly worded and signed by about 400 people, asking for a pardon for James W. Tate, or "Dick" Tate, the defaulting ex-Treasurer of Kentucky, were laid before Acting Governor Worthington. The petitions were evidently prepared some time ago, as the names of several people now dead appear among the signatures. The filing of the petition at this time is regarded as an indication that Tate's friends have heard from him.

The Courier-Journal in its editorial columns gives as a cause for the burning of toll-gates, the teachings of Hon. William J. Bryan. What will the Courier-Journal resort to next? Such declarations are either from the pen of an ignoramus, unworthy the name editor, or a slanderer, who, if it were possible, would commit deeds worse than that of burning property. It is so hard for the Courier-Journal to return to its old-time veracity.

The report of the Interior Department shows that the Government of the United States has paid out in pensions, and in the cost of disbursing the same, in the last thirty-one years the sum of \$2,034,817,769. This is within less than \$350,000,000 of the highest figure reached at any time by the interest-bearing public debt. There are now 970,678 pensioners, a greater number than ever before, though the amount paid last year was less than in 1893, when it reached the highest point. An increase from \$8 to \$12 a month is recommended for disabled and destitute survivors of the Mexican war.

As announced in the Winchester Democrat, Clark county has thirty-one candidates for the various county offices: viz., three for County Judge; two for County Attorney; three for Circuit Clerk; seven for County Clerk; five for Sheriff; five for Jailor; six for Assessor. Every one of these candidates submits himself to the action of the Democratic party. Remembering the great claims made recently by certain other men we might expect to see announcements subject to the action of some other party.

The State Central and Executive Democratic Committees and prominent Democrats were in session in Lexington Monday and Tuesday and resolved that it was the sense of the meeting "that only those voters who supported the nominees of the Chicago convention at the late election should be permitted to take part in any Democratic convention, primary election, or precinct meeting to be held in the various counties for the purpose of nominating candidates for county offices;" they practically decided to contest the election of Republican Presidential electors, and appointed a committee to represent the party at the canvass by the State Board, and also a committee to whom they should report for final decision as to whether or no there should be contests; they appointed a committee to prepare an address to the Democrats of Kentucky, some time in the near future, and they referred to a special committee the well advanced plans for starting a free-silver morning daily newspaper in Louisville.

We are willing for all Democrats, regardless of past errors, who henceforth have decided to affiliate with the Democratic party as Democrats, to be permitted, yes, invited into our ranks, where they will find a welcome and together as one people we will fight the classes.

The Nicholasville Democrat gives Judge W. H. Beckner a fling by saying he was one of the few gold Democrats who voted for Bryan and that it feared he would never be a state-man. Judge Beckner is a Democrat, a Democrat who is not greater than his party, and when at Chicago, the Democratic party declared for free silver, he fell into line and supported the platform and ticket. Had all Democrats been of like material, abiding by the action of the majority, William Jennings Bryan would have been President-elect and would have had something to hope for, but now there is nothing new before us and we may expect to walk in the beaten path of the present administration, with but the defunct tariff issue as the bone of contention.

The Court of Appeals has affirmed the decision of the Clark Circuit Court, which in May, 1894, awarded to Mrs. M. C. Guy a verdict of \$208 against the railroad to Elkin, because she was carried beyond the station a short distance. The additional 10 per cent. makes a total \$275.

William Bryant, Sheriff of Breathitt county, who was short \$3,500 and who was arrested in Indian Territory and returned, has been released, his bondsmen having made good the shortage.

Mr. Henry Watterson has reached New York City on his return home from Europe, and it is said he will again assume editorial charge of the Courier-Journal.

The revenue due the State from Clark county amounting this year to \$36,663 has been paid by sheriff Hodgkin.

Why go to W. W. Reel's to buy your holiday presents? Because you can get useful articles and buy them cheaper than at any other house in the city. These times even ten cents on an article pays. You don't make any mistake by going to Reel's.

Mr. W. H. Tyrie, a brakeman on the C. & O. railroad, had his hand badly mashed while coupling cars last Wednesday morning. It was necessary to have two fingers amputated.

A. R. Ratliff, who has been living on Wm. Sladd's farm, has rented from Wm. Sutton his farm of 207 acres on the Maysville pike. He will take possession on March 1st.

Helpless
Rheumatics!

Rheumatism is no respecter of persons—the healthy and vigorous are as liable to its attacks as the weak. The symptoms of the disease are almost unnoticed at first, so insidiously do they steal over the body; gradually the little pains and stiffness increase, until they develop greater inconvenience day by day. The knees, ankles, and other joints of the body ache constantly, swelling to several times their natural size; the patient finds himself unable to get around; is soon incapacitated for business, and later is confined to his bed, utterly helpless. It is a great mistake to expect relief from such condition by the application of liniments and other external remedies. The medical profession admit that the disease is in the blood, and it is but reasonable that only a blood remedy, one purely vegetable, and free from potash, can afford relief. S. S. S. (Swift's Specific) is an unfailing remedy for Rheumatism, and has cured the severest cases, where other remedies failed to reach the disease.

Mr. Frank T. Reynolds, of Dalton, Ga., was a sufferer from Rheumatism since his boyhood. He writes: "Ever since I was twelve years of age I have suffered intensely with Muscular Rheumatism, which, at one time, kept me in bed for eighteen months. I took all kinds of treatment, and visited many famous springs, but could get only temporary relief; the disease always returned, and at times was so painful that it was impossible for me to use my arms and legs. I tried almost everything that was suggested, and after eighteen years of suffering, S. S. S. was recommended, and I was happy to, at last, find a cure for this painful trouble. S. S. S. seemed to get at the disease promptly, and afforded immediate relief."

The experience of Mr. E. J. Gibson, of Madison, Ga., was similar to the above. He says: "I tried almost every rheumatic remedy I heard of, but grew worse instead of better. The sharp, aching pains, peculiar to Rheumatism took possession of my entire body, and the suffering I endured was intense. I was soon unfit for business, and became as helpless as a child. The potash prescriptions of the doctors almost ruined my digestion, and I found no relief in anything until S. S. S. (Swift's Specific) was recommended. Several bottles cured me completely, and for more than four years I have not had a symptom of Rheumatism." S. S. S. is unlike the many blood tonics on the market, for it cures the most obstinate cases, which they can not reach. It is a real blood remedy, and is the only one guaranteed.

Meeting of Tobacco Growers.

Pursuant to a call for a meeting of the tobacco growers of Montgomery county issued by W. R. Dean, Chairman, to be held at Court-house Saturday afternoon Dec. 5th., 1896, there was present a large number of the tobacco growers of this county. The meeting was called to order by W. R. Dean Chairman who stated that the object of the meeting was to devise some means for curtailing the raising of tobacco, during the year 1897, and that the election of a Secretary was in order to fill the vacancy caused by the death of J. C. B. Duff; thereupon W. B. O'Connell was elected secretary to fill said vacancy.

On motion of H. C. Howell, it was resolved that it was the "sense of this meeting that the tobacco growers of Montgomery county, raise no tobacco during the year 1897, and that the tobacco growers of the State are asked to join in the movement."

It was further resolved that the Chairman appoint a Committee from each precinct, (said Committee to consist of three members) to solicit names to an article, binding the signers thereto not to raise or have cultivated any tobacco during the year 1897, and thereupon the Chair named the following committees.

For Howard's Mill, J. R. Shroul, J. W. Gatewood and H. C. Graves; for Harts, J. W. Clark, John Trimble and H. C. Gillaspie; Aarons Run, S. S. Priest, J. H. Henry and W. P. Flanders; Grassly Lick, W. Said Committee to report to an adjourned meeting to be held Saturday afternoon December 12th at Court-house at two o'clock. H. C. Howell was appointed a Committee to have drawn up the necessary papers for the use of the above named Committees.

It was resolved further, that the local papers be requested to publish the proceedings of this meeting. There being no further business before the meeting it was adjourned to meet Saturday afternoon Dec. 12th., at two o'clock at Court-house.
